HOUSE

My water colour of our pigstays during  
the 1940's. The pigs often got out; note  
the slaughter bench Jim stood on

as the High St was in the 40<sup>s</sup>  
Poplars House as it was, Wheelers  
Butchers shop. The long high wall as it was  
and the foot-path grey rounded top stone  
on edge and curb also which went from  
the Manor drive all the way to the house  
next to the stone house by the wheat sheaf

on coconut matting I remember
