Dear Richard,

I've enclosed three photos I've enlarged from some small ones. The shop is the original building my father built when he moved up from Vale Cottage right at the top of Old Post Office Lane, about 1930

The 2 cars are a Minerva and an Essex, my clads taxis. Taken about 1930 also (You would not be able to park 2 cars side by side today owing to the amount of traffic on that road.) incidentally as kids we were able to put jackets down in the road and play football without moving for vehicles very often

The third photo is about the 14 Seater bus my clad had about the same time, I'm not sure if the driver is my dad or one of my uncles
