(c) Keep the Grantor indemnified against all actions, claims, costs, and expenses which may be made against the Grantor, by reason of the apparatus or of the work carried out from time to time. Provided that the Company may at their own expense defend any such action or claim in the name of the Grantor.

(4). Should the Grantor sell or otherwise dispose of the said land or any part thereof, the Company shall at their own expense, upon receipt of six calendar months' notice in writing from the Grantor, and before the expiration thereof, remove such part of the apparatus as may be affected.

(5). If the apparatus or any part thereof shall cease to be of use to the Company, then the Company may terminate this Agreement by giving to the Grantor six calendar months' previous notice in writing. On termination of the Agreement the Company undertake to restore the surface of the ground as far as practicable to the same condition as found when they entered upon the property.

(6). If any rent payable hereunder shall, after application for same has been made to the Company, be unpaid for 30 days, the Grantor may terminate this Agreement without notice, and remove the apparatus at the cost of the Company, who shall pay the cost of such removal to the Grantor on demand.

(7). The Company undertakes to give the Grantor or occupiers of the said land 7 days' notice in writing of any periodical inspection of the line—except in the case of breakdown when an immediate inspection may be made on verbal notice.

(8). Subject as aforesaid this Agreement shall remain in force for a period of ten years from the first day of January next following the date hereof and thereafter from year to year until determined by either of the parties giving the other six calendar months' notice in writing of their desire to terminate this Agreement.
