

Remembrance Service

Memorial Day Service 2002

A memorial service led by staff and pupils at Badsey First School.

This term Classes Co, A, L and S have been learning all about World War Two. A few weeks ago our children knew very little about the war, now they are full of knowledge and enthusiasm for the topic. They have learnt about why the war started, and who were the leaders and countries involved. They have found out about life at home as a child living in a city, town or village, what life was like for an evacuee and parents left behind, and how the British coped with The Blitz, bombing raids, rationing and keeping our country going.

The children have learnt about the harsh realities of war, families torn apart, men fighting abroad and the huge loss of life. Therefore this Memorial Day service is very important to the children, who are pleased you could be here to share this special day with them.

Please stay for a drink after the service, and take a look at all the work the children have done this term.

Many Thanks.
